The Construction Users Roundtable Salutes 2016 Construction Industry Safety Excellence Award Winners

Cincinnati, OH

The Construction Users Roundtable (CURT) is proud to announce its annual Construction Industry Safety Excellence (CISE) Award Winners and calls upon the industry to continue its progress in promoting construction site safety across the United States, Canada and the rest of the globe. As one of its core initiatives CURT is committed to working towards continued improvement in construction industry safety performance.

CURT is an association of leading corporations dedicated to the promotion of cost effective construction methods. The members, as major consumers of construction services seek to foster improved construction safety performance through recognition of the achievement of excellence and the promotion of proven effective work practices.

The CISE program seeks to encourage efforts to improve safety by recognizing safety leaders in all segments of the construction industry. Award applications were distributed to CURT members as well as leading national contractor associations and local construction user councils throughout the United States and Canada.

"The CURT CISE Award winners have once again established new levels of safety performance, culture and innovation that proves zero injuries can be achieved. Our class of 2016 award recipients have reinforced our belief that owner companies, contractor companies, and our skilled crafts can partner effectively together to design and build complex domestic and international projects that meet specific business needs and provide jobs while protecting the health and safety of everyone on those projects. CURT is proud to present world class performance and teamwork resulting in the highest commitment to safety as defined by the Owner Safety Blueprint. Please join me in applauding these leaders of industry who by example demonstrate that construction safety is not just another priority but a true personal value to their organizations." | Art Limper, Board Member and Past Safety Chairman, CURT

The CURT CISE Owner Safety Awards were presented to:

Owner Company Operating Entity:

ExxonMobil Baytown Complex

Company-wide Project:

ExxonMobil Research and Engineering Company-Baytown Area Projects

U.S. Project, 12 or more months in duration:

Encouraging owners and contractors to adopt the principles outlined in the CURT publication entitled, "The Construction Owners' Safety Blueprint," demonstrates CURT's commitment to promoting a safer construction industry.

"Safety Improvement will continue to be a key deliverable and core value for CURT and its member firms. Those who do an outstanding job at reducing construction workers' injuries are to be commended," said Gregory Sizemore, CURT Executive Vice President. He continues, "Owners will continue to work towards continuous safety improvement."

CURT announced these prestigious awards and made the presentations at its 2016 Awards of Excellence Celebration at The Hilton Riverside in New Orleans on November 7, 2016.
