## The Construction Users Roundtable Announces 2016 Workforce Development Award Winners

Cincinnati, OH

The Construction Users Roundtable (CURT) announced its fourteenth Annual Workforce Development Awards and called upon the industry to continue its progress in promoting construction workforce training and recruitment across the United States and Canada. CURT is committed to give significant national/international recognition to companies and organizations that implement effective recruitment and training programs that develop first class craftsmen and managers.

The Construction Users Roundtable is an association of leading corporations in the United States and Canada, dedicated to the promotion of cost effective construction methods. CURT members recognize that training, education and recruitment are essential to excellence in construction project delivery. As a result, CURT founded the Workforce Development Awards to recognize companies and organizations for extraordinary, exemplary and innovative recruitment, training and education programs, which encourage people to pursue careers in construction.
