

THE CONSTRUCTION USERS ROUNDTABLE

"THE OWNERS VOICE TO THE CONSTRUCTION INDUSTRY"

For Immediate Release

March 5, 2010

Construction Users Roundtable presents SUSTAINABLE STRATEGIES TO REDUCE COST

Cincinnati, OH

The Construction Users Roundtable (CURT) is pleased to announce that **Robert C. Volkman**, the former Associate Director for Global Construction Management/Asia Capital Management of Procter and Gamble, will facilitate the CURT Best Practices Workshop, **SUSTAINABLE STRATEGIES TO REDUCE COST** on April 14, 2010 in Houston, TX. Presently, Volkman is a widely sought after industry consultant, especially in the areas of Industrial Relations and Productivity and Improvements. He is currently teaching at the University of Cincinnati.

The Construction Users Roundtable is an association of leading owner corporations and organizations dedicated to the promotion of cost effective construction methods. CURT exists to create a competitive advantage for construction users. CURT accomplishes this multifaceted objective by providing aggressive leadership on those business issues that promote excellence in the creation of capital assets.

The goal of this workshop is to share practices being utilized by CURT members and leading building industry design and construction firms to reduce facility capital and operating costs while simultaneously reducing the environmental footprint of building projects and facility operations.

Topics that will be covered include strategies for improving energy management in organizations, improving energy performance and environmental footprint of existing and new buildings, and improving the footprint of data centers along with ways to make renewable energy projects financially viable.

The next CURT membership meeting will be held April 13, 2010 in Houston, Texas and is being generously sponsored by **JACOBS**. This meeting is exclusively for CURT members and all interested owner representatives. Participation in the CURT Workshop, **SUSTAINABLE STRATEGIES TO REDUCE COST** on April 14, 2010 is open to anyone in the construction industry. Please contact the CURT office at 513-563-4131 or construction-users@curt.org with any questions or register now at www.curt.org
